SHRISHANTH A J

Bangalore Urban, Karnataka, India | shrishanth1807@gmail.com | B.Tech CSE (AI & ML)

EDUCATION

B.Tech in Computer Science & Engineering (AI & ML) **2026 - 2030**
S-VYASA Deemed to be University, School of Engineering & Technology Bengaluru, India

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript (Basics), SQL
AI & Automation: LLM Prompting, Discord.py / Bot APIs, BeautifulSoup, Requests, Pandas
Tools & Platforms: Git, GitHub, Linux, Discord Developer Portal, VS Code, Excel / Google Sheets
Soft Skills: Rapid Prototyping, Technical Communication, Event Management, Team Leadership

FEATURED PROJECTS & INNOVATIONS

Project ULTRON - Autonomous AI Personal Assistant | *Python, LLM APIs, Automation* **In Active Development**
- Architecting an interactive personal AI assistant to automate workflow execution, scheduling, and query resolution.
- Implementing natural language processing workflows and context memory for autonomous multi-step task handling.

THERMO-SHIELD: Solar Defense Habitat (InnovateX '26) | *Hardware / Systems Design* **Sept 2026**
- Competed in InnovateX 2026 Hackathon (Cluster One Technical Association, S-VYASA University).
- Co-designed a modular, zero-fuel solar thermal shelter engineered for high-altitude defense outposts (e.g., Ladakh).
- Integrated Phase Change Material (PCM) heat storage and aerogel insulation architecture under tight hackathon deadlines.

Automated Directory & Lead Scraping Pipeline | *Python, BeautifulSoup, Pandas* **2026**
- Engineered Python web scrapers extracting clean tabular business listings into CSV/Excel formats.
- Implemented defensive scraping practices including request throttling, retry mechanisms, and automated deduplication.

Custom Discord Server Architecture & Automation Bots | *Discord API, Bot Integration* **2025 - 2026**
- Deployed custom automated bot workflows, permission matrices, and role hierarchies for multi-member tech communities.
- Automated onboarding flows, event notifications, and real-time moderation pipelines.

ACHIEVEMENTS & LEADERSHIP

- **Hackathon Participant:** InnovateX 2026 Hackathon - School of Engineering & Technology, S-VYASA.
- **Technical Community Lead:** Event management and logistics execution for campus developer activities.
- **Competitive Athlete:** Active basketball player applying fast on-court decision-making and teamwork to engineering.
